📑 Certificates

Udemy
Adobe Photoshop, Adobe Illustrator

CRDF Global
Cyber Hygiene e-Learning Course

Udemy
ASPNET Core and Angular

Pirple
HTML5 and CSS3

💼 Professional Experience

Anchorz Up, Software Developer
06/2022 – present | Pristina, Kosovo
- Contributed to the development of **Anchorz Up**, a comprehensive application designed to manage school applications across the United States. Utilized **Alpha Anywhere** to build robust and scalable backend services, while implementing dynamic user interfaces with **JavaScript**, **HTML**, and **CSS**.
- Designed and optimized SQL queries for efficient data management and retrieval, ensuring smooth operation even with large datasets.

GlobalCT Digital Kosovo, Software Engineer
01/2021 – 06/2022 | Pristina, Kosovo
- Led the development of a web-based application for creating and managing surveys, utilizing .NET for the backend and Kendo UI for the frontend. Implemented features such as question branching, data export, and real-time analytics, enhancing user engagement and data collection efficiency. Collaborated closely with the design team to ensure a user-friendly interface and seamless integration of Kendo UI components.
- Developed a car registration application using .NET for the backend, with HTML, CSS, and Bootstrap for the frontend. Designed and implemented a responsive user interface that allowed users to register vehicles efficiently across different devices. Integrated secure data handling practices, ensuring compliance with industry standards for sensitive information.
